

Certified Technical Analysis Associate

Course Overview:

One of the benefits of gaining Technical Analysis skills is that, Technical analysis can be used to analyze anything from stocks, commodities, interest rates or forex. Because of this cross functionality there are hundreds of jobs in various Equity and BFSI sector companies if you have technical analysis skills! This test will prove that you are ready to break into the equity markets as a trader, or research analyst. The test will cover foundation aspects of different techniques and tools used in technical analysis.

About the Test:

This test will help you assess yourself in the job role of a technical analyst. The test will check your understanding and your capacity to implement the various technical analysis tools like MACD, Stochastic Oscillators, RSI and more. We will also test you on your ability to “read” price trends, like moving averages, volumes, PE ratio, etc.
